

PALM SPRINGS

“Sunny Palm Springs in California is synonymous with style and glamour. The iconic area has influenced architecture, design and interiors ever since its 1930s heyday when it was the holiday destination for the rich and famous. We love the innovative materials and the expansive and seamless spaces for indoor/outdoor living. The style combines old-world Hollywood elegance with a modern minimalism (and a bit of kitsch and colour), and the laid back sleek and chic vibe is perfect for the Australian climate and lifestyle.” KATE WALKER

- Furniture with metallic finishes in mirror, silver and gold
- Blend retro chic with the ultra-modern
- Architecturally, flat roofs and butterfly roofs are ideal for this aesthetic
- Palm trees and feature cacti are the perfect plants for a Palm Springs style
- Bring the 1950s and 1960s breeze block back (ideal for an alfresco area)
